# UC campus fall events for prospective students

This fall, campuses are offering a variety of events for prospective students, including events for first-year, transfer and out-of-state/international applicants. Each campus continues to work closely with state, federal and local agencies to ensure the safety of the campus and community. Therefore, events may be offered in-person or virtually and could change depending on current guidelines. Be sure to check with the campus for more information on the full schedule and format of events as well as registration information. Many campuses advertise events in their counselor newsletters or on their counselor pages, so check the Campus Admission contacts on the [Connect to resources](#) page for links to those sites.

Campuses may offer a range of virtual opportunities, including college fairs, appointments, admissions sessions, tours and videos on admission, housing and/or financial aid and scholarships. Some will be hosted in person, while others will be offered virtually. Programming for counselors, students and families will be available.
